BOODY. There was an important conference in the Mayor's office yesterday of men interested in the plan for a public library, provided for in a bill now before the Legislature. Among those who attended were W. A. White, R. R. Bowker and W. A. Bardwell, of the Brooklyn Library; the Rev. Drs. Storrs, Hall and Talmage; C. M. Pratt, of the Pratt Institute; President Hendrix and Superintendent Maxwell, of the Board of Education; Professor Robert Foster, of the Union for Christian Work; Dr. A. W. Catlin, of the Long Island Free Lending Library; S. F. Berry, of the Young Men's Christian As-Library; S. F. Berry, of the Brooklyn In-sociation; Professor F. W. Hooper, of the Brooklyn In-stitute, and Commissioners Griffin, Swan, Jenks, Brower, Wilson and McGuire. All the large libraries

of the city were represented.

Mayor Boody presided and introduced the discussion.

Mr. Jenks read the draft of the bill, and those present were asked to present their views. Dr. Storrs spoke as the representative of the Long Island Historical Soclety's library. He thought the proposed law marked a great advance in the history of the city. Dr. Talmage said that he believed Brooklyn had been hungry for a public library for twenty years, and he was glad a beginning had been made. Professor Hooper said that there were six large libraries in the city, of which four were free. The public-school system and the library system should be linked together, and every school-house should be a distributing station for books.

President Hendrix, of the Board of Education, dep recated the idea of the Mayor and the president of the Board of Aldermen being the officers of the library board of directors, and said also that the bill did not provide a large enough fund. W. A. White, of the Brooklyn Library, said that he believed in organizing branch libraries in all parts of the city. Brief remarks were also made by Professor Foster, Charles M. Pratt, Dr. A. W. Catlin, Dr. W. H. Maxwell, S. F. Berry and Dr. A. W. Catlin, Dr. W. H. Maxwell, S. F. berry and Dr. Charles H. Hall. R. R. Bowker urged that the librarian should have more power of choice in the matter of books and assistants than the bill provided, and political influences should not dominate the control. Mayor Boody appointed Dr. Storrs and Messrs, White, Hooper, Hendrix, Griffin, Pratt and Jenks a committee to consider the suggestions made and draft them as amendments to the bill, and report back to the conce in a few days.

THE BUILDING WAS EXPECTED TO BURN. The dangerous walls of the burned building of Smith, Gray & Co., at Fulton-st. and Flatbush-ave., were pulled down yesterday, and all obstruction to street travel was removed. Owing to the danger in the high wind on Monday night and yesterday morning, the running of the Flatbush-ave, and Third-ave, cars past the ruins was suspended, but regular trips were resumed before business hours yesterday.

Assistant Chief Engineer Dale, of the Fire Department, made his report to Commissioner Ennis yes-terday. In it he said that the first engines arrived at the fire three minutes after the alarm was turned in, and he arrived two or three minutes later with more engines. On his arrival he found that the fire had already gained great headway, and he sent second and third alarms. The officers and the men of the department behaved in a brave and praiseworthy manner, and three of them were injured. Owing to the great headway the fire had attained before the alarm was given, the cause could not be ascertained. Smith, Gray & Co. have hired the Universal

Building, at Washington and Tillary sts., from the Liebmann Brothers (who will remove to their new store), and will occupy it until their new building is completed on the site of the burned one. Mr. F. Smith said yesterday that the upper floors of the burned building were an advertisement, as they made the building appear more pretentious, and they were not fireproof. They were mere lofts, partitioned off for storage purposes, the design being to use them for offices when a demand arose in that part of the city. He expected the building would burn some day and kept it insured for every cent of its value.

TO OPEN THE NEW COLUMBIA THEATRE. The new Columbia Theatre property, forming onebalf of the Universal Building at Washington, Tillary. and Adams sts., was transferred yesterday by Lieband Auams sis., was transferred yesterday by Lieb-man Brothers to Henry Weil, a wealthy property-owner. He gives in exchange for it real estate, the principal portion of which is the "Berkeley" and "Montague" flats in Montaguest. There will be a "press view" of the building on Friday evening, and the opening performance will be on next Monday, when Mayor Boody, A. M. Palmer, Daniel Frohman and Edwin F. Knowles will make speeches formally opening the house in connection with the presenta-tion of "Alabama." which will be followed a fortnight later by Sarah Bernhardt.

The story, in its unpublished details, throws an unpleasant light on the unsay state of affairs existing in the public buildings in that block by the river, between East Twenty-sixth and Twenty-eighth sts. It shows, on the one hand, that doctors in the hospital, holding a most grave and responsible place of public trust, apparently lack en tirely the sense of dignity and the law abiding spiri which would naturally be expected of men of their place, more than of almost any others, took it into their own hands to punish mildly a wretch whom good citizens would have handed over to the authorities that he might be sent to the State prison Instead of being allowed to go free, after a mere duck

THE GRAND JURY ACTS AT LAST.

Judge Lippincott a week ago censured the Grand Jury for its negligence in not indicting Seigfried Cron heim, proprietor of a variety theatre, and charged with keeping a disorderly house. Cronheim had been ar rested twelve or fourteen times for this offence and was under about \$20,000 ball to await the action of the Grand Jury. Judge Lippincott concluded his vigor ous remarks by declaring he would not receive any indictments from the Grand Jury until one againdictments from the Grand Jury until one against Cronheim was found. Yesterday the Grand Jury became convinced that the Judge meant all that he had said, and Cronheim was indicted, notwithstanding the Guttenburg race-track influence. When the Grand Jury informed Judge Lippincott that this and eight other indictments had been found he consented to receive the body.

Cronheim was arrested under the indictment at 8 o'clock last night and was taken to the county fail. He will be arraigned to plead to-day.

RATIFYING THE CONTRACT WITH ARMOUR

UNION STOCK YARDS TO ISSUE \$3,000,000 IN BONDS TO THE PACKERS.

A meeting of the stockholders of the Chicago Junction Railways and Union Stock Yards Company was held yesterday in the law office of General William F. Abbett, No. 1 Montgomery-st., Jersey City, General Abbett is counsel to the company in New-Jersey. The meeting was called to ask the stockholders to ratify the change in the company's business by adding to the objects of the company, as specified in its certificate of organization, the following objects: "To establish, maintain and operate at or near the stock-yards of the Union Stock Yard and Transit Company, at the city of Chicago, warehouses, docks and other improvements; to aid said Union Stock Yard and Transit Company in im proving, developing, protecting and preserving its prop-erty and business; and to acquire land, suitable for either of said purposes, at or in proximity to the city of Chicago, or elsewhere."

In addition to this the company was to be asked to confirm the contract made by the directors with Philip D. Armour, Nelson Morris, Gustavus F. Swift and others, under and by virtue of which the company agreed to issue \$3,000,000 of fifteen-year 5 per-cent non-cumulative income bonds. The notice of this special meeting was sent out on January 39 of the present year, and with it was forwarded a circular

which said:

Your directors were informed that Messrs, Philip D. Armour, Gustavus F. swift and Nelson Morris, of Chicago, and their associates, had purchased a tract of about 4,000 acres of land at Tolleston, in the State of Indiana, within ten miles of the city of Chicago, on which property they intended to establish their packing establishments and also stock yards for the receipt of cattle, and to remove their several businesses from the Chicago yards. The cattle and live-stock parchased by Messrs, Armour, Swift and Morris and their associates at the yards of the Chicago Stock Yards Company are the source of over 50 per cent of the business and income of the Chicago Yards, and the removal of these packers would have resulted in a corresponding loss and injury to the Chicago Company's business and income.

Your directors have, therefore, made an agreement with Messrs, Armour, Swift and Morris and their associates, dated January 15, 1802, whereby the latter, among other thins, agree:
